EDUCATION

- **Jaypee University of Information and Technology**
Bachelor in Computer Science Engineering

Waknaghat, HP
July 2024 - July 2028

PROJECTS

- **Edusphere – Early-Stage EdTech Startup Project**

Role: Founding Developer (Team Project)

Aug 2025 - Oct 2025

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Contributed as a founding developer in a small, remote team building an early-stage ed-tech product
- Designed and developed core frontend UI components and dashboards
- Implemented end-to-end CRUD functionality by integrating frontend features with backend REST APIs
- Collaborated with team members and the founder to translate product ideas into working features
- The startup later secured ₹30,000 in early-stage funding, validating the product concept
- Partnered with 3 Schools

EXPERIENCE

- **Edusphere - Founding Engineer (Remote)**

Aug 2025 - Oct 2025

- Designed and developed core frontend UI components and dashboards
- Implemented end-to-end CRUD functionality by integrating frontend features with backend REST APIs
- Collaborated with team members and the founder to translate product ideas into working features

- **Open Community - Open Source Contributor**

June 2025 - July 2025

- Improved UI by aligning auth cards and maintaining consistent styling.
- Updated schema.prisma to support environmental-based database configuration.
- Designed and integrated a new logo to refresh the project's visual identity

- **Technical Sciences Movies and Photography Club - Web Developer**

Nov 2024 - Aug 2025

- I designed the event photos for the Murious 19.0 tech event and used JavaScript to bring them to life as dynamic background images on the website. My goal was to ensure the visuals matched the event's branding and provided an engaging experience. I also focused on optimizing the images to load smoothly and look great on any device
- I developed proficiency in HTML, CSS, JavaScript, and Adobe Express by working on my college events.
- Collaborating with senior students in building a website greatly boosted my confidence, allowing me to take on new challenges, trust my skills, and contribute effectively in a team environment.

TECHNICAL SKILLS

- **Languages:** Python, C++, JavaScript (ES6+)
- **Frameworks & Tools:** VS Code, Git/Github, Postman, Express.js, React.js
- **Cloud Technologies:** Cloudinary
